BRISK SUGAR WAR IS NOW PREDICTED.

Post president of the National Sugar Refining Company, discussing the meaning of the cut to 312 cents for granuated sugar, reads by the Sugar Trust, said: "The making of the large contracts by beet sugar interests made it impossible for refiners of the West, S ath and East, who had been supplying the bulk of the refined

sugars in the Missouri Valley, to market their stocks there. their stocks there.

"The American Sugar Refining Company evidently thought that radical chance was necessary in order to open the markets to ordinary competition.

MIRACLES OF TODAY

The Wonderful Stories of Two People Saved from Horrible Death

It probably never occurred before that two people horriely afflicted in entirely different ways, and living far apart, were miraculously rescued from the very jaws of death, by the same means, and almost at the same time. The stories of George Herniman, of Buffalo, and Mrs. George W. Sharp, of Washington, Kan., read like the wonders of Divine interference. Let them tell their experience in their own plain, truthful language:
